

2D Cartoon Parallax Backgrounds

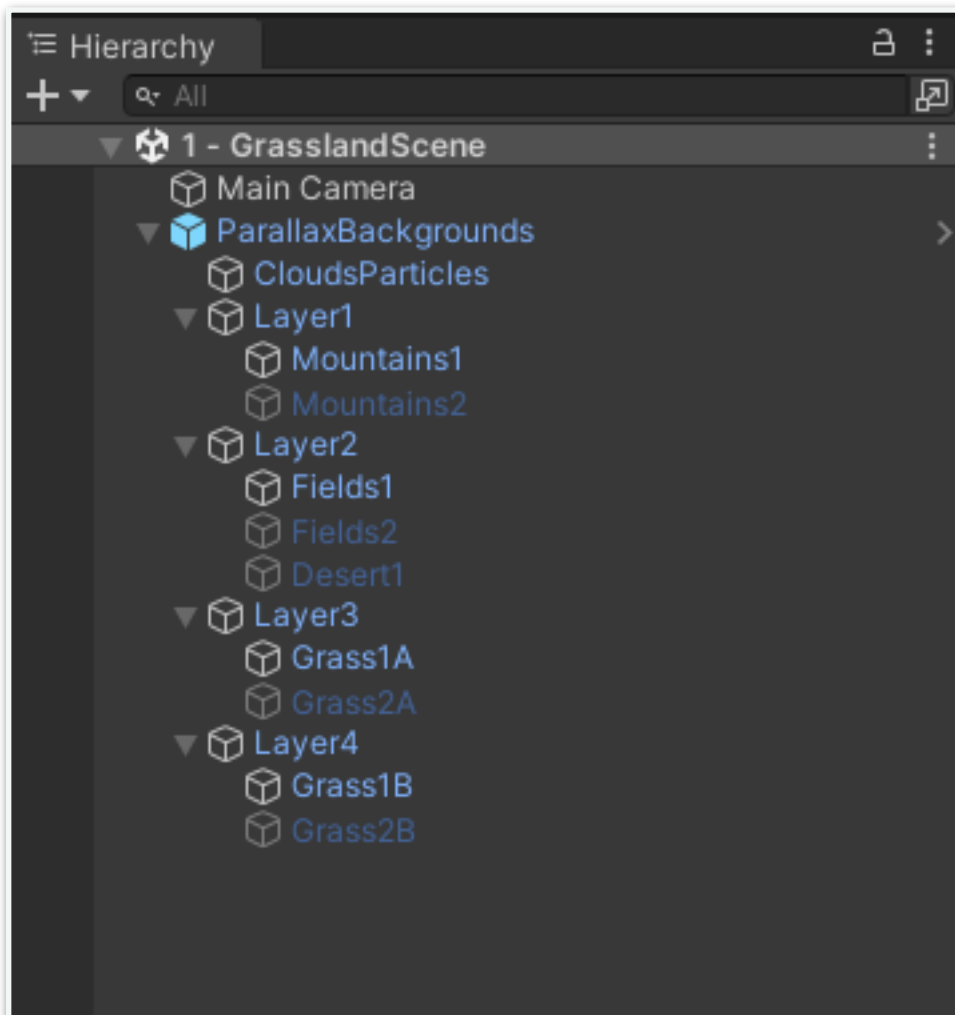

Thank you for purchasing the 2D Cartoon Parallax Backgrounds package.

This package contains 2 variations of a grassland scene, and one desert scene. Different layers can be mixed and matched to produce new variations. A “MaterialScroller” script is also included.

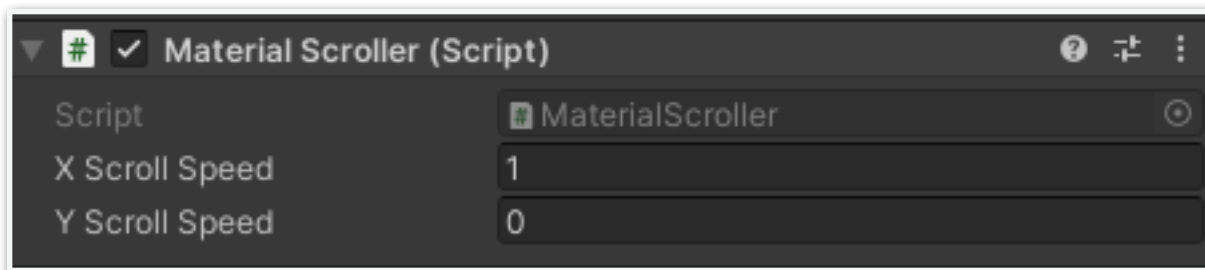

Usage:

Simply drag and drop the “ParallaxBackgrounds” prefab onto your scene, the prefab has 5 child gameObjects: 4 backgrounds layers and 1 clouds particles system.

Activate/Deactivate different child objects under each layer to achieve different results.

The “MaterialScroller” script is attached to every background object, can be used to adjust the background’s scrolling animation speed and direction.

If you have any questions, don't hesitate to contact us at: support@pastelpix.com

Thank you.
